

# Environmental and Quality Policy

# Rotakorn

**We shall listen to our customers' demands and every performed job shall be a recommendation for future business.**

**We shall always work for continuous environmental improvement within our company as far as it is technological possible and economic defendable.**

**We shall be informed of and follow the laws and regulations that concern our activities and our products. We shall keep a dialogue with our customers, trade organizations, suppliers and authorities in order to be well informed of relevant environmental conditions.**

**We shall always strive to be as "recyclable" as possible.**

**We shall always work with environmental and quality goals in our company.**

**Through information we shall make all concerned aware of their option to personally participate in our environmental and quality objectives.**

**We constantly scrutinize our business in a substantial environmental circle perspective.  
We constantly work towards environment and quality goals.**

**We shall continuously increase our co-workers and employee's knowledge about our work in the environmental and quality sector.**
